

Info Brochure 2024

Agronal Export, located in the department of Santander Colombia, Municipio of Giron, since 2019 collects **the best quality Tahitian Lime** from certified farmers and cooperatives in the area.

The lime crops are located between 800 and 1,300 meters above sea level, in a tropical climate with the perfect balance between soil, sun, rain and altitude, producing the best limes in the region for the United States and Europe.

Why do we do it?

We are located in the best tropical climate in Colombia, guaranteeing production stability without affecting the quality of our limes.

What makes us different from others?

We produce, pack and export all year round
